STAYCOOL PRO MEDIA SPEC SHEET

AMERICA'S MEDIA MANUFACTURING INC.

staycool PRO KEY FEATURES

ENGINEERED FOR APPLICATION FLEXIBILITY

StayCool Pro evaporative media offers customizable configurations to meet a wide range of cooling system requirements. With custom angles and a 6.7 mm flute profile, it provides flexibility when specifying media for different applications.

OPTIONAL DURO EDGE COATING

For applications requiring additional edge protection, StayCool Pro offers optional Duro Edge coating on one or both sides. This added option allows customers to tailor their media configuration to their specific application needs.

SIZING THAT FITS YOUR NEEDS

Designed to accommodate a variety of system designs, StayCool Pro is available in widths up to 24 inches, heights up to 78 inches, and customized depths. Custom sizing options help support diverse equipment configurations and installation requirements.
